School Opening Friday Night

The opening of the new school on Friday evening should attract a big turnout. Dr. Carpenter of the Technical School, Calgary will be the principal speaker and word has been received from Hon. O. L. McPherson that he will also be present and address the meeting. These speakers will also address the children in the afternoon, while the high school pupils will take part in the evening programme. There will also be a banquet at 8.30 with the meeting following. A general invitation to all residents in the district is cordially extended. Let us make this a special occasion for showing our interest in the educational institutions of the community. If you cannot attend the banquet, come at eight and be present for the evening's programme.

HAMILTON—HOOD

The marriage was quietly solemnized on Friday, January 25, at 3 o'clock at St. Andrew's Presbyterian manse, Lethbridge, when Miss Janet Milroy Hood of Carmanagay, became the bride of Mr. James Hamilton of Champion. Rev. W. E. Kelley, M. A., B. D., performed the marriage ceremony. The bride was attended by Miss Peggie Kulungated of Carmanagay, and Mr. A. MacMillan of Carmanagay, supported the groom as best man. The happy couple will reside on the Hood farm, near the Fraser coal mine.

Card of Thanks

We wish to thank all our friends who so kindly and generously remembered us during Mrs. Anderson's indisposition and also the Ladies Aid for the beautiful plant they sent.

Sincerely yours,
Mr. and Mrs. U. G. Anderson.

Out of the 11,874 square miles devoted to national parks throughout the Dominion, Alberta has 8,662 square miles. There are seven park areas in the province, the largest being Jasper National Park with an area of 5,380 square miles. Rocky Mountain National Park is next in size with 2,751 square miles and the remainder is made up as follows: Buffalo Park 179.05 square miles, Elk Island 51 square miles, Nemiskam 8.05 square miles, Wawaskew 54 square miles and Waterton 220 square miles.

A new high mark in the value of the poultry industry in Alberta has been set during 1928 according to the annual report of the Poultry Commissioner, J. H. Hare. Figures arrived at with the co-operation of the Dominion Bureau of Statistics show that the numbers of the various kinds of poultry on Alberta farms in 1928 were as follows: 1,308,214 turkeys; 200,922 geese; 90,258 ducks; 5,496,130 other fowl; a total of 6,253,700 as compared with 5,853,000 in 1927. A corresponding increase in the total value of poultry is shown in the fact that this reached \$6,005,208 in 1928 as against \$4,921,000 in 1927.

The carnival held in the rink last Friday evening was well patronized although the night was bitterly cold. The costumes were excellent considering the handicap under which the event was pulled off.

Power Company Reduces Rates

To the residents of Champion: We have much pleasure in announcing to the residents of Champion that the revenue derived from the sale of electrical energy in the village during 1928 entitles all Domestic and Commercial consumers to a reduction of 25c per month in our Service Charge, effective immediately. The new rate schedules will be mailed to all consumers in a few days.

We also propose to give a rebate of 10c per month to all Domestic and Commercial consumers from October 1st 1927 to December 31st 1928 in view of the fact that the total revenue derived from the village during the first twelve months of our operation exceeded \$6,000. This is in accordance with the franchise agreement granted to us by the village.

CALGARY POWER CO., LTD.
R. R. Bates,
Managing Director.

OATTS—WILLIAMSON

The marriage was quietly solemnized at the home of the officiating minister, Rev. S. G. Froese, 721 Third St. S., Lethbridge, on January 26th, when, at 2 o'clock in the afternoon, Kenneth Douglas Oatts of Carmanagay and Nina Hazel Williamson of Champion were united in the bonds of holy matrimony. The happy couple will reside in Carmanagay.

The astonishing thing is the rate of our present progress. We are going forward. We are going forward more rapidly than ever before, more rapidly than any country in the world. When we recall the fact that in the year 1900 our total export of manufactured goods was under \$70,000,000 and that in 1928 the value had risen to approximately \$800,000,000 we have some idea of the amazing growth of Canadian manufacturing during this period. At the same time we must take cognizance of the fact that the home consumption has vastly increased. Anyone who considers the amount of money which the average individual had to spend in 1928 compared with 1900 will recognize the fact that the purchasing power has greatly increased in that time and therefore the consumption of Canadian made goods has gone up by leaps and bounds. Compare the figure of Canadian export of manufactured goods with the export of \$2,400,000,000 export of manufactured goods from the United States and it will be seen that Canada, with a population of approximately 10,000,000 is exporting one fifth as great a volume of goods as is exported by the United States with a population of 120,000,000. This is a record of which we may well be proud—it is a record which has never been exceeded by any other Nation in the economic history of the world.—R. J. Deachman.

The gravelling of the section of the Red Trail between Macleod and Lethbridge has been completed by the contractor, McDonald and Foster and their gravel-crushing outfit has been moved to within a few miles of Pincher. From here work is being started on the gravelling of the section of road between that point and Macleod. On the completion of this work, Lethbridge and Macleod will have all-weather roads through to Crow's Nest on the west and Edmonton on the north.

Word received from P. Patterson, who is visiting relatives in Ontario, would indicate they are having their share of stormy weather there, but this is not interfering seriously with the pleasure of his trip.

Champion high school hockey team visited Claresholm last Saturday. The long, cold trip was not conducive to good hockey following and may in part account for the result being in favor of Claresholm.

There was a distinct break in the cold weather on Tuesday and Wednesday with considerably higher temperatures.

THURSDAY, Jan. 31, 1929

NOTES AND COMMENT.

Coal was in big demand over the week end and many found themselves running short of the black diamonds.

This country provides some changes that prevent any suggestion of lack of variety. From summer to fifty below zero is but a step.

It has been suggested by health authorities that winter weather would do a great deal to check the prevailing flu. What we have had this week should eliminate anything that would yield to cold weather.

This past month has been stocktaking time with business men almost everywhere and now it will be possible to estimate the results of 1928 business. While the great bulk of the crop in some districts was damaged to an extent that left it far from realizing the profitable results anticipated prior to the frost, and the unusually mild weather experienced almost to the middle of January interfered with the sales of winter stocks, there seems to be considerable optimism with regard to the situation.

The cold snap contributed several railroad accidents apparently more or less due to the exceptional weather conditions. The fact that the thermometer reached the lowest point for the past twenty years is the more remarkable when it is considered that up to the present cold snap this had been a remarkably fine winter, with very mild weather.

The use of trucks has changed the situation entirely with regard to the delivery of wheat. When horses were used a crop the size of last years would keep most of the farmers hauling all winter. As it is if the elevators and railways could handle the grain it would practically all be delivered while threshing was in progress. The absence of the teams from the roads at this time of year makes things look rather lonesome.

Premier Brownlee suggests that the proposed new school legislation may not be passed before the end of the year. While the proposed changes may be acceptable at large it is hardly possible that such a complete change in system of management could be assimilated satisfactorily without taking plenty of time to impress the possible advantages of the new system upon the people interested. The general tax suggested in the new legislation is by no means a new idea. It has been working nicely in Manitoba for many years, although not as large a levy as is proposed in Alberta. This, however, might be largely accounted for by the increased cost of operating schools in recent times. It will be found that great inequality will still

continue in levies for school purposes, and that while one school district will be operated on a very small special levy, others will have to impose much higher taxes. The general tax will help to adjust the great differences in levies quoted by the Minister of Education, but will still leave one man paying a great deal more for educational purposes than others in more favorable districts.

Some 1,055 combine harvesters were purchased in Alberta in 1928 bringing the total number in operation in the province up to 1,316 according to a survey recently conducted by a western farm paper. Purchases in the three prairie provinces during the year totalled 3,657 of which 2,356 were in Saskatchewan and the remaining 200 in Manitoba. The sales in the three provinces in 1928 represent an increase of 611 per cent over the sales in the previous year.

Basal Glumerot Disease of Wheat

(Experimental Farms Note)

This is a bacterial disease which affects the glumes, the grain and the leaves. It is most conspicuous on the wheat grain where it appears as an ink black area involving the very tip at the germ end. The disease tissue does not noticeably extend from the tip except in the region of the crease. Fungi may cause a similar black point but the disease tissue is more spreading and is hardly ever lumpy or charred black. If the kernels are effected early in the formation, it may result in some

shrivelling, but otherwise the grain is not severely injured. Effected seeds, both shrivelled and fully developed, germinate normally without any noticeable injury to the plant. Seed wheat, however, which contains a large number of these diseased kernels should be looked upon with suspicion until more information is available regarding its development.
The disease is first noticed in the field just as the heads are turning in color when the effected spikelets will be distinctly bleached. A careful examination will show that the basal part of the glumes is distinctly black in color. The tissues in this area are invaded by the bacteria. Likewise, it will be found that the grain thickened as described above. It has been determined under greenhouse conditions that the bacteria may attack the leaves. In all probability under field conditions the leaves and stalks may be effected, the amount of injury depending upon weather conditions. It is impossible at present to state how much damage this trouble may cause, as it is a comparatively new disease.
The basal glumerot disease appears to be widely distributed, as it has been received in samples of seed wheat from various districts of Western Canada. In some seasons and in some districts it is quite common. This is probably associated with local weather conditions.
Until more knowledge is obtained on this problem it would be wise for farmers to avoid seed wheat which contains a large amount of discolored kernels, or have sample sent to a pathologist who will make an examination for the presence of disease. Information regarding plant diseases may be obtained by writing to any Dominion Laboratory of Plant Pathology.

An INVITATION

SPECIAL PRESENTATION of The Outstanding Chevrolet of Chevrolet History

EVERYONE is familiar with Chevrolet's brilliant record of past success, but the new Chevrolet represents the most spectacular of all its achievements introducing a new conception of motor car value.

It is with pleasure, therefore, that we announce our ability to secure the services of a Chevrolet factory expert to conduct for us a special presentation of the Outstanding Chevrolet of Chevrolet History.

This presentation comprises a complete, thorough explanation of this sensational new car—and, in addition, a special series of illuminated slides and a motion picture of unusual interest entitled "With Chevrolet Across Canada."

Everyone is interested in the latest automobile developments! Everyone is cordially invited to attend! Make a note of the time and place.

Notes From The Wheat Pool

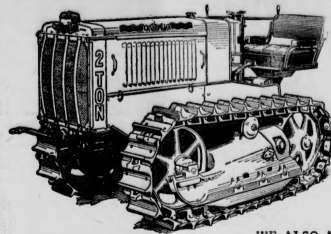

T. Cleveland of Delacour, who raised over 90,000 bushels of wheat last year, has signed a Wheat Pool Contract. He will seed 4000 acres this year.

When the 2c per bushel farm storage payment came into effect on January 16th, the receipts at Alberta Pool elevators almost doubled for a considerable period. 200,000 bushels a day were received for some considerable time.

Scores of meetings have been held by Alberta Wheat Pool field service men throughout the Province. Every phase of the Pool movement is open for discussion at these meetings.

Great interest was taken in the hearing held by the Grain Commissioners on the question as to whether or not Pool members can direct their grain through line elevators to Pool terminals. A. A. McGillivray, solicitor for the grain dealers, held the Pool members had relinquished this right when he signed a Pool contract. M. M. Porter, Alberta Pool solicitor maintained that the Pool farmer had not deprived himself of this right given under the Canada Grain Act. Decision was reserved.

WORLD HAPPENINGS
BRIEFLY TOLD

The Turkish assembly ratified the pact for reunification of war and the government instructed its ambassador at Washington to sign the pact. The Rev. Dr. S. Parker Cadman, pastor of Central Congregational church, Brooklyn, has been invited to deliver the sermon at the opening of the League of Nations conference at Geneva on Aug. 20.

Premier Stanley Baldwin, announced in the House of Commons examination will be held into the 60-year-old project for a tunnel under the Channel, which has been invited to a comprehensive non-party re-English Channel.

Several persons were killed and a thousand buildings destroyed in the popular Greek district of Tavala in "Contantopole" by a terrific fire whipped by a fierce wind which had waste an extensive area.

Japan has notified the League of Nations that manufacture and distribution of narcotics in Korea had been taken out of the hands of private companies and made a government monopoly.

Every effort will be made to secure for Canada the best of the Olympic games in 1932. It was decided at a meeting in Toronto of the executive committee of the Canadian Olympic committee.

The Victory scholarship of the Royal Institute of British Architects has been won by a woman for the first time. Miss Betty Scott of Kensington, England, 22 years old, defeated 30 other competitors, most of whom were men.

McGill university library has come into possession of two extremely valuable Greek manuscripts. The larger of the two dates from the 12th or early 13th century, while the other volume is a lectionary dating from the 15th century.

Col. Robert Johnson is home with his mother and sister in Chicago after having wandered all over the country, a victim of shell shock and loss of memory since the World war. Johnson's kin had given him up for dead.

Edmonton Telephone System
As showing the growth of business in Edmonton, "The Journal" points out that whereas 25 years ago there were 600 citizens of the town, the 250,000 citizens of the city of Edmonton today have a telephone system, the system has now grown to represent a capital investment of \$2,500,000, with subscribers numbering 18,000.

Vancouver Grain Exports
Grain exports from Vancouver for the calendar (1928) year will exceed 90,000,000 bushels, according to Merchants' Exchange figures.

The average depth of the ocean below sea level is 12,600 feet.

Time For Expansion
In Sheep Industry

Can Be Greatly Developed In Canada Says Expert
In a review of the sheep industry, A. A. MacMillan, chief of the sheep division of the Dominion livestock branch, says the time seems opportune to gradually expand the industry in keeping with consumptive demand, provided the marketing of lambs can be organized on the basis of regulated marketing extending over a longer period.

The sheep industry can be developed and the possibilities are unlimited from the range standpoint in the prairies, the foothills and the interior of British Columbia, while in eastern Canada many thousands of farms are not carrying one per cent of the number they should carry, the report states.

CHILDHOOD AILMENTS

Can Be Quickly Banished With Baby's Own Tablets.

The ailments of childhood are many, but nine-tenths of them are due to one cause and one cause only—a disordered condition of the stomach and bowels. To quickly banish any of the minor ailments of childhood and the ailments of the stomach and bowels, the stomach and bowels must be regulated.

No other medicine for little ones has had such success as Baby's Own Tablets. They banish constipation and indigestion; break up colds and simple fevers; correct diarrhoea and colic and promote healthy sleep by regulating the functions of the stomach and bowels. Concerning Mrs. L. M. Brown, of Walton, O., writes: "I cannot speak to highly of Baby's Own Tablets as I have found them excellent for childhood ailments."

Baby's Own Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Winnipeg Newspaper Union

"Flu" Is Here
In Dead Earnest

SICKNESS IN NEARLY EVERY HOME IN WESTERN CANADA
Watch your little child—beware of everyone who is coughing or sneezing—avoid crowded places above all stop your grippiness cold at the beginning.

Doctors and nurses who have had long experience in handling grippiness in a household. Vapor as an effective means of protection. It is very simple to use. Cauterize, and the whole family can enjoy its germ-killing protection at the cost of a few cents.

Put a teaspoonful of liquid Cauterize on a stove or lamp and bring the water to a boil. The vapor which rises contains the most powerful disinfectants. As you breathe this healing vapor, you kill the germs that cause colds, catarrhs, flu, and grippiness.

Better protect the whole family in this way than have a household of sickness. All druggists sell Cauterize in 50¢ bottles.

Revenue From Poultry
In 1913 revenue from the poultry industry in Alberta amounted to \$2,500,000. In 1927, 14 years later, revenue from this source was \$1,003,000, according to the poultry commissioner for Alberta.

In all infantile complaints that are the result of the depredations of worms in the stomach and intestines, Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

A New York specialist writes in a carrying horse out of choice, and horses can be melted into wick rabbits, later emerging as nightmares.

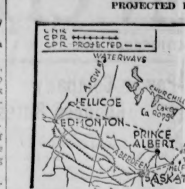

Scientists say the earth is cooling at the rate of two degrees every sixteen million years.

SUNDAY SCHOOL LESSON
FEBRUARY 3
THE HOLY SCRIPTURES

Golden Text: Open thou mine eyes, Lord. Psalm 119:18.
Lesson: Deuteronomy 6:4-9; Joshua 1:8, 9; 2 Kings 23:20; Nehemiah 8:1-8; Psalm 107:1-17; Luke 24:13-37.
Devotional Reading: Psalm 110:1-12.

Explanations and Comments
The Value of the Scriptures, Psalm 107:1-17. The law of Jehovah, the testimony of Jehovah, the precepts of Jehovah, the commandments of Jehovah, the ordinances of Jehovah.

The fear of Jehovah is clean, enduring for ever. "When among the people, each clearly significant of the Scriptures, the Psalmist introduces the abstract expression 'the fear of the Lord,' he must mean the awe, the obedience, the discipline and the reverence of the book which is the burden of his song" (George Adam Smith).

More to be desired are they that gold, yes, than much fine gold. The work like deep, deep mine, and jewels rich and rare. Are hidden in its mighty depths. For every searcher there.

Then with heart aglow, the Psalmist cries, "More to be desired are they that gold, and the dropping of the honours"—the pursuit of the servant warned, in keeping there is great reward.

If only we would obey the leadings of Christ, as the plants of the field, the flowers of the field, and health and liberty. We should be lifted to perfect health, our hearts enriched, and our dispositions sweetened. Dr. Meyer.

Form Strange Society
Wives Of Gamblers In Budapest Have Organized Union
A strange society has just been formed in Budapest. The wives of gamblers have banded themselves into an anonymous union, with the object of preventing the tragedies resulting from losses at cards. The members of the union propose to visit members of parliament and enlighten them on the tragic family conditions brought about by the gambling clubs, and eventually to make an appeal to the minister of the interior.

The organizer of this union is the destitute widow of a gambler, who formed the habit of waiting for him in the vestibule of the card club in the small hours of the morning, and then, when he returned, she would find him covered with blood, and the thought of the losses which their husbands would disclose to them when they came from the card rooms.

Spreading around corners is a traitorous road to the hospital.

Rural Credits Boards To Be Organized In Provinces
Now that the federal rural credit board has been completed, the task of organizing the provincial boards and of putting the Federal Rural Credits Act into operation will be proceeded with vigorously and it is regarded here as certain that the new housing organizations will be functioning before the spring break-up.

The most important job now is to get the provincial boards appointed. Six provinces are under the act, and, therefore, six separate boards are required. The system to be followed is that the provincial governments will submit a list of names of suitable men to the federal board, and from this list the members will be chosen. It is understood that Hon. J. A. Robb, minister of finance, has written to the provinces urging early action. When all the boards are in existence, a proclamation will be issued bringing the new system into effect, and Mr. Robb will then give the federal board \$5,000,000 free of interest to be used in loans to farmers. This will be a part of the revolving fund for mortgages taken in exchange for this money will be discounted and the money so obtained used to continue the business of lending.

SUNDAY SCHOOL LESSON
FEBRUARY 3
THE HOLY SCRIPTURES

Golden Text: Open thou mine eyes, Lord. Psalm 119:18.
Lesson: Deuteronomy 6:4-9; Joshua 1:8, 9; 2 Kings 23:20; Nehemiah 8:1-8; Psalm 107:1-17; Luke 24:13-37.
Devotional Reading: Psalm 110:1-12.

Explanations and Comments
The Value of the Scriptures, Psalm 107:1-17. The law of Jehovah, the testimony of Jehovah, the precepts of Jehovah, the commandments of Jehovah, the ordinances of Jehovah.

The fear of Jehovah is clean, enduring for ever. "When among the people, each clearly significant of the Scriptures, the Psalmist introduces the abstract expression 'the fear of the Lord,' he must mean the awe, the obedience, the discipline and the reverence of the book which is the burden of his song" (George Adam Smith).

Royal Bank Annual Meeting

The sixtieth annual meeting of shareholders of The Royal Bank of Canada marked the closing of the most successful year in the history of the bank. The report submitted showed that both the assets and the profits of the bank constituted a record.

Dealing with the question of trade relationship between Canada and the United States, Sir Herbert Holt, the President, said: "The Royal Bank's imports more profit from a single market than Canada receives from the entire world. The value of these imports during the twelve months ended September 30, 1928, aggregated 770 million dollars, a total more than 200 million dollars in excess of Canadian sales in that market during the same period. Such an unbalanced trade relationship is injurious to the national welfare of this country."

To spite of the fact that the present trade relationship between the two countries is disproportionately favourable to the United States, there is active discussion of further tariff increases that seem likely to shut out the few competitive lines which Canada now exports.

"We can now see that it is not so much that we propose such a change, but that we are forced to check upon Canadian property automatically check the volume of goods which we have to import from the United States, and that on the other hand, the improvement in the Canadian conditions brings corresponding increases in the volume of goods."

Training For The Blind
Need For More Varied Occupation Says Major Timmins
Fifty per cent. of the blindness in the Dominion could be prevented if proper measures were taken by those liable to suffer injury to their eyes while at work or play declared Major A. M. Timmins, general manager of the Canadian National Institute of the Blind at a meeting of provincial field officials at the offices in Regina.

Major Timmins is touring the country to observe the work of the institute and in his short talk pointed out the need of an intelligent and intensive training for the blind. He declared that with such training the blind could work at almost any occupation besides the standard basketwork, reed work and broom making. In Saskatchewan he pointed out some 100 blind persons would thus be enabled to earn their own living and not be a burden on society.

He said that over \$100,000 worth of goods made by the blind had been sold in this province in 1923 by its blind department through women's organizations. Of this sum the broom sales amounted to \$25,000. The total sales for the Dominion and Newfoundland totalled one million dollars.

STEP TOWARD STABILITY IN EASTERN EUROPE

Paris—Poland's acceptance of the Soviet proposal for a protocol putting the Kellogg pact into effect immediately in eastern Europe, will yield beneficial results, it is believed in connection with the general situation in that part of the world.

The Russians have indicated that they are willing to admit not only Poland but also Rumania and the Baltic states to the provisions of this protocol.

Because of the Bessarabian question no diplomatic relations have ever existed between the Soviet and Rumania. It is surmised that the new protocol negotiations will lead to such relations.

The protocol will also go far in quieting Soviet fears of a great aggressive plot against Russia by the capitalist states led by Great Britain.

It is significant that Poland has waited until the United States ratified the Kellogg pact before accepting the Soviet proposal.

Sacrifices Life To Save Companion

Montreal Woman Isolated on Firemen

Montreal, Que.—Trapped in a top floor apartment, which she occupied with Miss Harriet Barr, a close friend, Mrs. N. Raipie, of London, England, sacrificed her life to save that of her companion in a fire which destroyed the Eltona apartment building, a four-story building here. When the firemen forced their way into the Raipie apartment, they found the lower floors, they found Mrs. Raipie near the window and started to carry her to safety. She stated that they first saw Miss Barr, who was already overcome by smoke. The firemen carried Miss Barr down the ladder and returned to the top floor to find a seething mass of smoke and flames. Their efforts to rescue Mrs. Raipie were in vain and it was not until four hours later that they were able to make their way into the building and carry out her charred body.

France Seeks Payment For German Sugar

Over Three Million Dollars Worth Not Paid For Is Claim

Paris—A search for more than \$2,000,000, owing the French government, was being made by police after it was revealed that reparations payments of sugar had been turned over to private concerns and not paid for.

Leon Poller, former professor of political economy at the University of Lille, has been arrested as a ring-leader in the plot against the government. He is accompanying police on their visit to various concerns believed involved in the deals. Forty thousand tons of sugar were delivered by Germany in lieu of cash as reparations payments. The sugar was turned over to the Sugar Farming company and the Franco-Moroccan Navigation company to sell, but the government has not received payment for it.

King's Condition Improves

London.—Continued improvement in the health of the King today led the court officials to begin planning the regular levee and other functions of the season. The first levee, at which the Prince of Wales will preside, will be held on Feb. 28. The King's physicians have made it known that he must spend no more winters in England and that he must spend the winter climate for several months each year.

Booster Found Guilty

Edmonton.—Vernon Boobler will hang on April 24, 1929. After a deliberation of five hours and eight minutes, the jury found the accused youth guilty of the murder of his mother, brother and their two hired men on July 9, 1927. The accused was Justice Walsh. Immediately sentenced the slayer to be hanged.

Will Advocate Railway Link

Winnipeg—J. T. Thomson, member of parliament for South-Central Winnipeg, will bring up in the House of Commons at the forthcoming session the subject of more direct railway communication for Winnipeg with Hudson bay.

W. N. O. 1770

Will Urge Negotiation Of Trade Agreement

Chinese Nationalist League Would Develop Business With Canada

Vancouver.—Development of trade between China and Canada through the negotiation of a treaty between their government and that of Canada is a major recommendation to be voiced at the annual convention of Kuomintang, Chinese national government, at Nanjing, by the seven delegates from Canada. Seventy-five representatives of all branches of the Chinese Nationalist League in Canada are now holding their annual convocation at Canadian headquarters, Gore avenue and Bender street, and will elect their representatives before the sessions end Jan. 31.

An increase in the number of consuls throughout the Dominion will also be sought by the delegates from Canada. Consulates are at present maintained only at Ottawa and Vancouver.

There are 75 branches of the league in Canada, with three divisions governing the east, central and west. There is a Canadian membership of more than 10,000.

Prizes For Research

Two Will Be Given For Best Work In Cancer Investigation

London.—The grand council of the British Empire cancer campaign announced the award of two prizes of \$2,500 each, in 1931 and 1932, for the best original piece of work in the investigation of cancer. The prizes will be given to the author of the best original work in the investigation of cancer. They will be known as the Garton prizes.

The report of the Medical Research Council, summarizing the work of various research centers in 1927, claims malignant growths in the early stages of cancer can be removed by the radium treatment as efficiently as by any surgical means.

New Railway Station

C. N. R. Station At The Pas Is Officially Opened

The Pas.—Another chapter in the development of northern Manitoba was written today when the Canadian National Railway's new \$750,000 station was officially opened here.

A ceremony was held at the new station, which is situated in the heart of the town. Maj. G. MacLachlan, engineer of the C. N. R., turned the station key over to W. T. Smart, general superintendent of transportation, who opened the door of the station to the public.

Believes Soviet Plot Over

Minister of the Soviet experiment in Russia had failed tragically and its endurance was now but a question of the patience of the Russian people. This was the opinion of Michaelovich, brother-in-law of the late czar, cousin by marriage to King George, who arrived here. The grand duke was certain that his countrymen would not suffer the yoke of the communists very much longer.

New Senator Appointed

Ottawa.—Francis J. Logan, former Liberal member for Cumberland, N. S., in the House of Commons, has been appointed to the Senate, filling the vacancy in that body caused by the death of Senator W. B. Ross. Announcement of the appointment was made at the prime minister's office.

Will Take King To Sussex

London.—Preparations are going forward for the removal of King George to Bognor in Sussex as soon as his doctors decide that the time is opportune. The King will travel the 65 miles to the coast resort in a large car fitted so that he can lie as comfortably as in his bed at Buckingham palace.

Canada's Record Wheat Yield

Ottawa.—Canada's yield of wheat for the year 1928 amounted to 323,271,000 bushels. This is the highest on record and the first time that Canada has harvested a crop of over three billion bushels. The announcement was made in the crop report just issued by the Dominion bureau of statistics.

Is Acting Postmaster

Ottawa.—William H. Pennock, for several years assistant postmaster at Ottawa, has been named acting postmaster. The vacancy was created by the death recently of Andrew G. Acres.

Class B Fairs

New Dates Are Set At Meeting Held In Winnipeg

Winnipeg.—The establishment of an eastern and a western circuit of B class fairs, and the setting of the principal result of a session of the Western Canada Association of Exhibitors, which comprises the class A fairs conducted their convention in the afternoon.

Arthur Wilson of Saskatoon, heads the Western Canada Association of Exhibitors for the coming year, being elected president to succeed H. W. Abbott of Edmonton at the closing session. H. G. Smith, Regina, was re-elected vice president of the organization and S. W. Jones, Saskatoon, will continue in office as secretary-treasurer.

Johnny J. Jones was awarded the contract for midway shows at class A fairs.

Because the circuit of the Western Canada Fair Association had become unwieldy by reason of the large number of fairs, it was divided into two circuits, and the dates for fairs set as follows:

Eastern circuit—Grandman, June 29 to July 1; Estevan, July 3 to 6; Portage la Prairie, July 10 to 13; Dauphin, July 11 to 13; Prince Albert, July 15 to 17; Melfort, July 18 to 20; Yorkton, July 22 to 24.

Western circuit—Weyburn, July 8 to 10; Assiniboia, July 11 to 13; Lethbridge, July 15 to 17; Red Deer, July 22 to 24; Camrose, July 25 to 27; Vegreville, July 29 to 31; Vermilion, Aug. 1 to 3; Lloydminster, Aug. 5 to 7; North Battleford, Aug. 8 to 10.

EMBARCO BRINGS PROTEST FROM RAILWAY HEADS

Montreal.—The partial embargo placed against central European countries by the Dominion department of immigration and colonization drew from the Canadian Pacific and Canadian National railways today a formal protest.

The decision, it was claimed in a statement issued by the presidents of the companies, "is a policy of the government, which people are affected, have in Canada."

The companies deny they are interested in moving colonists from non-preferred countries in Europe rather than those from Great Britain or other northern European or preferred countries.

The attitude of the transportation companies was outlined in a statement issued to The Canadian Press by the railway presidents, H. W. Beatty and Sir Henry Thornton.

BACK FROM THE BARRENS

Although he had not been out of the Barren lands for fifteen years, George Yandie, trapper, maintained a fine sense of civilization. The first thing he did when he got to The Pas—did not even wait until he reached Winnipeg—was buy himself a pair of spats with zippers. Yandie acted as interpreter when Count Ina Tolsty entertained the Eskimos in the far north. The photograph, taken outside the Canadian National Railway station in Winnipeg, just after the trio's ar-

RECEIVES IMPORTANT POST

Dr. Charles R. Best, collaborator with Dr. F. G. Banting in the discovery of insulin, has been appointed to the chair of physiology of the University of Toronto. He succeeds Prof. J. J. MacLeod, who left Toronto to return to the University of Aberdeen.

Exhibition May Be Re-Established

Winnipeg Ratepayers Will Vote On Question in March

Winnipeg.—An exhibition which promoters hope will take a prominent place among the exhibits of the Dominion is being planned at Winnipeg, according to Victor McCarty, director, speaking to western exhibition authorities meeting here yesterday.

Winnipeg ratepayers will vote March 19 upon the question of whether or not they wish to authorize expenditure of \$500,000 for the establishment of the city's exhibition.

Decline in Dairy Production

Winnipeg.—High spring feed prices and tempting offers by American buyers for dairy cows caused a falling off in total dairy production for 1928 in Manitoba, according to Alex. McKay, president of the butter manufacturer's section of the Manitoba Dairy association. The year, on the whole, was successful, the president intimated in his address.

To Tour Europe

Ottawa.—Arrangements have been concluded here for the European tour of a large party of Canadian club members. The group which is expected will draw members from every part of the Dominion, is to sail from Montreal aboard the liner Laurentic June 8.

Wrote For "Punch"

London.—Eudolph Chambers Lederman is dead at Bourne End after a long illness. He was famous as a cartoonist and rowing coach and also for the light, witty verses which he contributed to "Punch."

Needs Britain's Protection

Iraq Is Not Sufficiently Prepared to Defend Itself

London.—Differences between the British and Iraq governments over the ability or otherwise of Iraq to defend itself for Iraq have resulted in the resignation of the Iraq cabinet under Premier Aska Jafar Pasha of Amman.

The British authorities hold the view that Iraq, placed under British protection after the war, is not yet ready to assume full responsibility for its defense.

A treaty between the British and Iraq governments in 1923 provides the responsibilities of Great Britain as a mandatory power shall be terminated when Iraq is admitted to the League of Nations.

Iraq has a population of nearly 3,000,000, practically all Mohammedans. Its chief city is Baghdad, and the territory is east of Arabia, comprising 150,000 square miles.

The real difficulty it is pointed out in London is that even the existing agreements with Great Britain and Iraq are not fulfilled particularly with regard to military and financial matters, including railways and forts.

South African Tourists Greeted By Snowstorm

Students Wanted Thrill and Got It In Toronto

Toronto.—In the midst of a blizzarding snowstorm 27 students of South African universities arrived here in the course of their tour of United States and Canada.

"Just what we wanted," one of them exclaimed heartily, though citizens of Toronto were finding the storm troublesome.

"We were counting on Canada for the thrill of real cold weather, lots of snow and the novelty of ice hockey," T. Thorpe, Cape Town university spokesman for the visitors, said.

The students were the guests of the University and left for Montreal for a visit to McGill university. Before completion of the tour the students will have been away from home for three months and will have travelled 25,000 miles.

Crosses Atlantic In Steamer's Lifeboat

Snowway From England Had Feet Frost-Bitten During Voyage

New York.—Another bad story, youthful cheese curd diver of Chesapeake county, England, completed a stormy crossing of the Atlantic in a lifeboat, an uncomfortable but not a dangerous journey, for the lifeboat all the time was hanging in its davits off the ship's side.

The young man, who was named as a crewman and rowing coach and also for the light, witty verses which he contributed to "Punch."

He collapsed while telling his story but was revived and put to bed in the ship's hospital. He will be sent back to his cheese curd.

URGES BETTER FEELING BETWEEN TWO NATIONS

New York.—J. Ramsay MacDonald, former premier of Great Britain, in an article under his name in the current issue of The Nation, a liberal weekly, makes a plea for the understanding public men of the two nations "to meet and drag from the obscure corners of sulky suspicion the things that make difficulties between us."

The relations between the United States and Great Britain grow increasingly unhappy," he says. "A spirit is growing in the two countries which is estranging them and is encouraging a kind of squabbling criticism which destroys mutual understanding and forbearance."

"Have both of us failed by observing the old rule of 'let sleeping dogs lie'?" he asks, then continues: "The governments must act. Both countries ought to appoint five or six men to discuss the various points of difference. Mayhap first air would clear our minds of them."

This is no case for private and unaided action and endeavor. The governments must act. Both countries ought to appoint five or six men to discuss the various points of difference. Mayhap first air would clear our minds of them."

CANADA'S CLAIM APPROVED BY RADIO MEETING

Ottawa.—Canada's claim to 40 per cent of the intermediate waves has been approved by a radio meeting.

It is understood, been successfully maintained at the international radio conference meeting here.

While the negotiations continued to be closely guarded, the scheme of division is believed to be approximately 40 per cent to Canada and 60 per cent to the United States. Newfoundland, Cuba and Mexico will share certain of the channels.

From the fact that most of the waves have a range of only 1,000 to 1,800 miles, Newfoundland can share a number of waves with stations in the southern United States and no conflict will occur. In the same fashion Cuba and Mexico will occupy certain channels in common with stations in the United States.

Although the percentages eventually chosen were probably always in view, it is known that the United States was seeking a much larger share.

There are 639 channels in the band with approximately 250 channels available for distribution after allowing for amateurs and dot-and-dash stations.

Ratifies Kellogg Treaty

Action of Lithuania May Affect Dispute Between Russia and Poland

Kovno, Lithuania.—The Lithuanian government ratified the anti-war Kellogg treaty.

Ratification of the Kellogg pact by Lithuania has significance in its dispute with Poland over the Russian and Poland for a special protocol applying the pact in a localized sense to the states that touch the western border of Russia.

Lithuania and Poland have been at odds over frontier questions and over the ownership of Varna, a city which Lithuania claims as a legitimate capital but which is now held by Poland.

Plan Air Endurance Test

Fight to Prove Claim Made for New British Plane

London.—The Mail says that a new British plane, the "Golden Arrow," is planned to test the claim made for a new British airplane that it is capable of flying further than any other in the world.

The plane, which has tanks for three and a half tons of gasoline aboard and attempts the international flight in its hollow 35-foot wing, is now being put through flight tests. Two pilots will fly it to Capetown by easy stages and attempt the return flight without a stop.

Inspect's Scaggrave's Car

Prime of Wales Learns Things About Speed Riding

London.—The Prince of Wales, driving alone in his automobile, made one of his typical impromptu visits to a London motor house to inspect the car "Golden Arrow" and the speedboat "Miss England," with which Maj. H. O. Scaggrave intends to attack world's speed records this year.

The major happened to be present and he showed his vehicle to the prince, answering many questions about the sensations of speed riding.

Treating Drug Addicts

Geneva.—Nostake Bato, the Japanese League of Nations representative, has informed the international opium committee that Japan was successfully applying medical treatment to Korean morphine addicts. Out of 684 cases, 600 had been sent to hospitals and cured.

Director of Cattle Association

Brandon, Ont.—R. B. Pail, for 25 years editor of the Farm Journal, has been appointed director of extension of the Holstein Friesian association of Canada. His headquarters will be in Brandon.

Wireless For Planes

Toronto.—Provincial air force planes will be equipped this year with wireless, so they may send reports to headquarters from any distance up to 400 miles it has been announced.

Report Severe Relations

Berlin.—An entirely unconfirmed report circulated in Berlin said Japanese had severed relations with Russia. The source of the report was not known.

CHAMPION CHATTER

VOL. I

Thursday, Jan. 31, 1929.

No. 51

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEPUÉ, Editor.

EDITORIAL

We are not superstitious, and neither are we fond of ground hogs, so we can't understand all this hulla-balloo about Feb. 2nd. What is more, any man has a remarkable memory who can think back now and recall whether the ground hog saw his shadow last February.

Chicken Hoarded
Did you ever notice that most all hard boiled eggs are yellow inside?

We overheard two very good tractor prospects talking the other day. One of them said there is possibly two tractors others than Mc-Drz that I might buy but I can't get away from that service which the Mc-Drz give.

The radio may be said to have discouraged initiatives: there are fewer records being broken since it has supplanted the phonograph in popular favor.

Friday will see the new school officially opened. The Parent Teachers have the arrangements in hand and promise a real treat in the way of eminent speakers. A. Williams and Kenneth Oats were united in marriage. Congratulations Nina.

Service is the rent we pay for the space we occupy on earth. We don't know who said that, but it strikes us as being good and we are trying to keep our rent paid by giving you service.

That girl I think of a hymn.
"Which one?"
"How firm a foundation."

Our heartfelt sympathy goes out to Mr. and Mrs. F. Watts in their bereavement.
A very pretty wedding of local interest was held in Lethbridge on Tuesday, when Nina Williams and Kenneth Oats were united in marriage. Congratulations Nina.

Service is the rent we pay for the space we occupy on earth. We don't know who said that, but it strikes us as being good and we are trying to keep our rent paid by giving you service.

LOCAL AND GENERAL

Keep the O. E. S. St. Valen tine dance on Feb. 13th in mind.

Mr. and Mrs. H. Higgins were visitors to Calgary this week.

Born—To Mr. and Mrs. Hilz, at the C. E. Anderson farm, on Jan. 19th, a daughter.

Born—On Saturday, January 26th, to Mr. and Mrs. F. M. Watts, a daughter.

The C. W. L. will hold a bake sale in Hoskins' store on Saturday, February 9th, at 3 o'clock.

Don't miss the card party and dance to be given by the ladies of the Royal Purple on Monday evening, February 11th in Campbell's hall.

Tom Mix in "The Deadwood Coach" at the theatre next week.

The very cold weather interfered with the progress of the community hall for a few days but operations were resumed in the plastering on Tuesday. The floors will be laid as soon as the weather is milder.

A Bid For Freedom

THE trend of business is towards amalgamation and centralization—building up vast organizations through combinations of many small ones. In the face of this development the farmer as a single unit has found himself isolated, helpless and working at a disadvantage.

The first step taken by producers to remedy their position was the formation of producers' co-operatives, of which the Wheat Pool is the most notable example. In the Pool the strength of unity has been demonstrated time and again.

For the protection of himself and his family, and for the advancement of agriculture in general, every wheat producer in Alberta should join the Alberta Wheat Pool. There is no question but that the Wheat Pool has corrected abuses, narrowed grain trade profits, stabilized markets, and lessened disastrous speculation for the benefit of ALL wheat growers in Canada.

Undoubtedly the Wheat Pool has paid higher average prices to its members than the Grain Trade has paid to non-Poolers.

The Pool elevator system, operated on a non-profit basis, has given its patrons service at cost, fair weights and grades, and a measure of protection never before accorded.

To Those Who Have Not Yet Joined the Wheat Pool

ARE you going to build and maintain private grain and elevator systems forever and provide abundant profits for stock-holders year after year?

OR are you going to join the Wheat Pool ranks and work for your own interests and the interests of your Pool neighbors?

The Alberta Wheat Pool

Lougheed Building, Calgary

We are Closing Out

W. C. Hoskins. B. M. Roberts

Mrs. U. G. Anderson, who has been ill for some time is improving slowly.

Messrs. G. A. Orr, J. C. Collins, C. E. Anderson W. F. Bozarth, W. Ellis and W. C. Hoskins attended a meeting of Shriners in Calgary this week.

K. F. McLean R.O., of Anderson & McLean, Sight Specialists, 238 8th Ave. West, Calgary, will make his monthly visit to Champion Friday, February 1st. At the Drug Store.

50 degrees below and two baby canaries hatched out at Campbell's store last Sunday.

J. M. Moffatt is around again after being confined to the house for some days with an attack of appendicitis.

A presentation of the new Chevrolet models will be made in Peacock's hall, Carmanagay on Saturday, February 9th. The local agent, G. L. Depue hopes to have a similar exhibition at Champion at a later date. See advt. elsewhere in this issue.

The coal men have been having a real busy time during the cold snap, orders for coal being preemptory. Fortunately all were able to secure a supply, although it was found necessary to divide up a number of loads.

The roads are good in every direction at present as the snowfall was not sufficient to interfere with traffic. Should there be no high winds there will be little difficulty for motor enthusiasts in negotiating any of the roads in this vicinity.

A Valentine tea under the auspices of the Girls' Perseverance group of the C. G. I. T. will be held in the church at 3 o'clock in the afternoon on Feb. 9th, Candy and Valentines will be sold. Admission 25c.

The United Church of Canada

What is the church? Not just the United Church, or any one church but the Church entire, universal?
"The union of those who love, in the service of those who suffer"—is an old-fashioned definition which may prove a challenge and an inspiration.

UNITED CHURCH SERVICES

11 a.m. Sunday School, with adult class and classes for all ages younger.
3 p.m. 1st and 3rd Sundays of each month, Bussom, 2nd Sunday of the month, Sanderson, 4th Sunday of the month, Firgaurd.
7.30 Evening Worship.

Lutheran Church Services

The Lutheran church still preaches the Gospel of Christ and Him crucified. Lutheran services will be held, the Lord willing, at the Lutheran parsonage on Sunday, Feb. 10th, at 10.30 a.m. Sunday School after services.

You are heartily invited to attend and to bring your friends.
REV. F. A. DUENNING, Pastor.

D. 1929 dissolved.

WITNESS our hands at Calgary, Alberta, this 21st day of January A. D. 1929.
(Sgd.) Frank Anderson.
(Sgd.) Arthur Anderson.
SIGNED by the said Frank Anderson and Arthur Anderson in the presence of
(Sgd.) Frank L. Burnet.

Village of Champion

Ratepayers' Meeting

The annual ratepayers meeting will be held in Campbell's hall Wednesday, Feb. 6th at 7 p.m. Business, nomination of councillor and financial report.

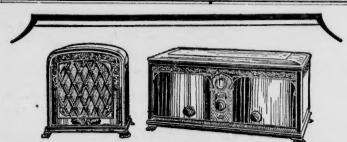

H. COOPER, Sec.-Treas.

Two rinks from Champion took part in the Poothills bonspiel at Nanton this week. The personnel of the rinks was as follows: Chal. Matlock, P. Holmes, F. J. Clapp, C. McLean skip; Iri Dittio, N. McLeod, A. Woodhull, J. D. Henderson skip. At latest news they are doing fairly well and are in at least two competitions yet.

Vulcan Flour at \$1.50 a sack is now extra good buying at Campbell's.

Plenty of time to wear out overshoes, yet Campbell's have special prices this week.

E. B. Ramsey, manager of the Canadian Wheat Pool, was in Calgary for several days conferring with the directors of the Alberta Pool. Mr. Ramsey addressed a Pool meeting at Olds on the night of Friday, January 25th.

Here it is—
the new Kolster

There's nothing finer in appearance or performance than the new Kolster All-Electric Radio—table or console models. To hear it is to be charmed by its amazingly true reproduction. To see it, is to be captivated by the beauty of its design. Come in, we'll be glad to demonstrate.
